Directions of use:

- 1) For single colour application use the brush to apply chosen eye shadow to the entire eyelid. Use the brush to pat rather than brush across the lid to ensure product longevity and coverage.
- 2) For triple colour application use the brush to apply the lightest colour first to the inner corners of the eyes as well as a light sweep just below the eyebrows. Use the medium shade next and pat from the middle of the eyelid out to the corner of the eye. Lastly using the darkest shade, to contour the eyelid. Start at the outside corner of the eye and lightly sweep up and around the center of the eyelid crease. Keep the colour intensity darkest along the lash line and fade out moving upwards.
